

Learn More About Starting a Home Health Care Franchise

Step 1:

Consultant Interview: Once you let us know you are interested in a home health care franchise from Right at Home, we will have one of our consultants contact you to learn more about you and why you think a Right at Home franchise would be a good fit for you. Right at Home wants to make sure you're completely aware of what's involved with a home health care business opportunity—especially a home health care franchise from Right at Home. Our consultants will have you fill out an application for consideration.

Step 2:

The Uniform Franchise Offering Circular (UFOC): If we mutually agree there is a potential match, you would receive and review our UFOC. The UFOC will give you important financial information that you need to know as you consider a home health care opportunity with Right at Home. While you're reviewing the UFOC, we'll be verifying whether a Right at Home franchise opportunity is a good match for your goals and aspirations.

Step 3:

Discovery Day: At Discovery Day, you'll visit our home office, meet our team, learn more about our extensive training programs and support systems, and experience first hand the passion we have for providing quality home health care to those we serve. Conversely, we'll have a chance to meet you to see if you're the type of person who has that unique combination of entrepreneurial spirit and passion for serving others, along with the discipline you'll need to be a part of a home health care franchise.

Step 4:

Territories and Agreements: Once we have mutually determined there is a match, the last step in the process is to finalize your territory and to sign the appropriate agreements. After all of the paperwork is completed, our Support Team will work closely with you to get you prepared for your training.
